Skills

Programming Languages

Go, Python, C, C++, HTML/CSS/JS, SQL, Lua

Libraries/Frameworks

FastAPI, Numpy, Pandas, React, ROS2

Technical Skills

Linux, Docker, CMake, Vim

Soft Skills

Strong Interpersonal Skills, Ability to Work In Groups, Ability to Work Autonomously, Problem Solving

Experience

Firmware Developer

Burnaby, BC

SFU RACERBOT DESIGN TEAM

January 2026 - Present

- Developed firmware for a 1/10 scale autonomous race car, based on the University of Pennsylvania's RoboRacer platform
- Used C++ and ROS2 to create software interfaces for various hardware components, including sensors, motors, and controller boards, ensuring seamless communication between hardware components for autonomous navigation

Tae Kwon Do Instructor

Port Moody, BC

TRANSCENDING MARTIAL ARTS

September 2025 - December 2025

- Instructed children aged 4-14 martial arts techniques such as strikes, blocks, patterns, and weapons training, resulting in improved student discipline and form
- Led a group of volunteer assistant instructors to aid with class management, creating a more positive and disciplined learning environment
- Developed structured lesson plans based on the class' age and skill levels, ensuring all students would be able to fully participate in the class

Information Officer

Port Moody, BC

ELECTIONS CANADA

April 2025

- Confirmed voter identification when they entered the polling station, ensuring voters had brought the correct forms of ID required to vote
- Directed voters to the correct stations and assisted voters with physical disabilities, allowing everyone to exercise their democratic rights without any barriers or obstacles
- Recorded vote counts after polls had closed in an efficient manner, allowing election results to be quickly compiled and released to the public

Projects

C to WebAssembly Compiler

🌐 grqphical/webc

DESIGNER/DEVELOPER

January 2026 - Present

- Built a compiler in Go that can compile C code into WebAssembly, allowing it to be run in the browser
- Designed a Pratt parser to generate an Abstract Syntax Tree, ensuring code compilation is accurate and swift
- Wrote a JavaScript port of the C standard library that is able to be both run in the browser and on the server with tools such as Node.js, ensuring maximum compatibility with existing C projects

Reverse Proxy

🌐 grqphical/interchange

DESIGNER/DEVELOPER

June 2025 - Present

- Created a reverse proxy server with Go
- Developed it to include the ability to proxy HTTP requests, host static files, and whitelist/blacklist IP addresses; giving users versatility in deploying their web applications

Relevant Coursework

- **Systems Programming (Jan. 2026 - Present):** Learned how to use the Linux kernel's syscall interface to work with processes, memory, threads, and networking
- **Data Structures and Programming (Jan. 2026 - Present):** Learned about various data structures including Linked Lists, Stacks, Queues, Trees, and Graphs.
- **Linear Algebra (Jan. 2026 - Present):** Learned about the basics of working with vectors and matrices in various dimensions, including matrix multiplication, dot products, and vector projection
- **Discrete Mathematics (Sept. 2025 - Dec. 2025):** Learned the basics of discrete mathematics such as formal laws of logic, rules of inference, modular arithmetic, and graph theory

Education

Simon Fraser University

BSc IN COMPUTER SCIENCE
Current GPA: 3.6

Burnaby, BC

September 2025 - Present

Certifications

FoodSafe Level One

March 2024

Volunteer Experience

Assistant Tae Kwon Do Instructor

TRANSCENDING MARTIAL ARTS

Port Moody, BC

June 2022 - August 2023

- Aided instructors in teaching children aged 4-9 martial arts techniques
- Managed the class, ensuring students were focused
- Helped students who were struggling with following the lesson, ensuring they could fully understand the techniques being taught

Summer Camp Volunteer

SIMON FRASER UNIVERSITY SUMMER CAMPS

Burnaby, BC

July 2023

- Assisted instructors in running chemistry and engineering camps for children ages 5-6
- Supervised groups of children during structured activities, lunch breaks, and free time

Achievements

BC Achievement Scholarship

BRITISH COLUMBIA MINISTRY OF EDUCATION AND CHILD CARE

October 2025

Scholarship awarded to students who've demonstrated academic excellence through grades 10-12

Extra-Curricular Activities

Tae Kwon Do

TRANSCENDING MARTIAL ARTS

September 2017 - Present

- Currently hold a 1st degree black belt in Tae Kwon Do

Interests

- Photographing natural and urban landscapes
- Acting as a Dungeon Master for a weekly Dungeons & Dragons campaign
- Building and managing an NHL fantasy team
